To establish access to your Gateway account, you will need your username and temporary password, which is listed below. You will enter your username into the "Username" field and use your temporary gateway password in the "Password" field. After you enter this information and click "Login" to access Gateway.

You will be prompted to update your password and establish your multi-factor authentication settings. Please update your password to something only you will remember.

Gateway Portal: gateway.stmarytx.edu

St. Mary's University Username: `abravo6`

Once you have successfully logged into your Gateway account, you will be able to access the St. Mary's University applications status page by clicking on the Application Status Page link found in the STUDENTS section of the LAUNCHPAD area of Gateway.
